ABOUT

UX/UI Designer with 1 year of professional experience crafting intuitive and user-centered digital experiences. Skilled in wireframing, prototyping, and user research, with a strong foundation in design systems, accessibility standards, and responsive design. Recently expanded expertise by learning WordPress, enabling creative and functional website design and management. I bring a balance of creativity, problem-solving, and technical skill, ensuring designs are both visually appealing and highly usable.

Passionate about delivering impactful digital solutions, I aim to contribute fresh ideas, collaborate with dynamic teams, and grow continuously as a designer.
